

School of Computer Applications and Technology

Mid Term Examination - Apr 2026

M.Sc. CS II Sem / MCA (All) II Sem / Int. BCA+MCA VIII SemDuration : 90 Minutes
Max Marks : 50**Sem II - E1PY214T - Block Chain**General Instructions*Answer to the specific question asked**Draw neat, labelled diagrams wherever necessary**Approved data hand books are allowed subject to verification by the Invigilator*

- | | | |
|----|--|---------|
| 1) | List the differences between Public and Private Blockchain. | CO1(3) |
| 2) | Illustrate the key features of a permissionless model of blockchain. | CO1(5) |
| 3) | Explain how different consensus algorithms achieve agreement. | CO2(5) |
| 4) | Explain the 'Delegated Proof Of Stake' and its role in Blockchain consensus. | CO2(8) |
| 5) | Identify the key features of a permissioned model of blockchain and explain why it might be chosen over a public model. | CO1(8) |
| 6) | Evaluate the effectiveness of various consensus algorithms in ensuring the security, reliability, and fairness of blockchain transactions. | CO2(9) |
| 7) | Compare public and private blockchains and evaluate their importance in terms of confidentiality, scalability, and control. | CO1(12) |
